Alfalfa Bill Says:
PRETTY hot back in Kansas, now, stranger—I used to live in Kansas before I reformed and before Kansas reformed. Say do have hot weather back there. I recollect one time when all the wire fences in the hill state had to be rebuilt—sun got so callous the bob-wires got red hot and burned through all the fence posts. Tried insulators but the temproacher kept a-goin up till the glass was all melted. I water dig hard boiled spuds out of the garden every day and all the chickens I-ld fried eggs—over. Who, man, we water go out early in the mornin' and pick roatin' ears off'n the cornfield, sassin' hot an' ready fer to eat, while every turkey on the place was slung bare as September. When Kansas I may say, is one state where it do get sure-nuff hot when the weather's warm.

INDEPENDENCE AND COFFEYVILLE FIGHT OVER WATER SUPPLY

KANSAS CITY, Aug. 7.—Coffeyville, Kas., is facing a serious water famine, the supply of city water having been exhausted yesterday. Independence has a small supply held by a dam across the Verdigris river. Fearing the dam might be blown up so the supply of water may be released and available for other towns, men from Independence, armed with rifles, guarded the dam last night.

All the water used by the electric light and ice plants at Olathe, Kas., is being hauled into town.

Caney and Coffeyville, Kas., report a shortage of water.

The Atchison, Topeka and Santa Fe Railway company is hauling water for its engines at Little River, DeGraft, Florence and Strong City.

OLD MEXICO NATIVE IS CHARGED WITH TROUBLE

Perfecto Chavez, a native of Old Mexico, was arrested this morning by Policeman Lujan, charged with disorderly conduct. The complaint in the case was filed by Mrs. J. Heister Taylor of 315 West Tijeras. Mrs. Taylor told the police that Chavez had attempted to hunt away a hussy from the side of her house. When she remonstrated, she said, the Mexican used violent and abusive language. When police court convened Chavez was in a drunken stupor so that it was necessary to postpone the trial.

A. C. De Baca, an old offender, was picked up by Policeman Mainz last night on the charge of being intoxicated. The prisoner this morning appeared in court with a badly damaged nose, the injury being sustained when he fell face downward on the sidewalk. Hearing was postponed until a physician could be secured to dress the injured member.

FEDERATION OF WOMEN'S CLUBS MEETS IN DEMING

The State Federation of Women's clubs, it was announced today, meets this year in Deming, the dates being October 3 to 6. Low rates are to be granted by the railroads of the state and Deming expects to entertain one of the largest crowds ever gathered for an occasion of this kind.

To Probe Arizona Reformatory. Phoenix, Ariz., Aug. 8.—Charles M. Osborne, secretary of the state board of prison control left for Benson yesterday to investigate charges of brutality lodged against A. L. Harper, superintendent of the Arizona reformatory, which it sustained, Governor Hunt says, will result in the removal of Harper.

Twelve boys were lashed 25 times with a strap on June 28. Another had received 45 lashes and another 187 lashes. Robert Gray, 18, of Douglas, who was one of the boys beaten, made the charge.

Over a telephone Harper admitted that the boys were whipped with straps and said that the beatings were to discipline them for conspiring to tie the superintendent in his office, abstract official papers and escape.

Boys' and Girls Summer Shoes 1.00 to 3.00

Don't judge our Shoes or any Shoes by an advertised price. See the Shoes and let them prove their excellence. We are always pleased to show.

FIRE CHIEF FINDS 4-YEAR ENLISTMENT FAULT WITH CITY COUNCIL ORDER

MAKES NO HIT WITH SOLDIER

Declares Taking Men Away From Station to Flush Sewers Is Courting Disaster Should Blaze Break Out.

Fire Chief Klein this morning pronounced dangerous in the extreme the proposition that members of the department and some of its equipment should be employed to flush the sewers in the downtown district.

The city council at its meeting last night, after considerable discussion, decided that the department, under the direction of the chairman of the fire committee, should be employed in the work of flushing the sewers.

That the sewers need flushing every member of the council was agreed but there was a difference of opinion as to how the work should be done. Mayor Sellers said that the task was too great for the street department and thought that the firemen, who have plenty of spare time, might well be employed on the work in the business district and the council finally agreed with him.

The same proposition had been made about a month ago, but Chief Klein was present at the meeting and succeeded in deferring action on the resolution. Last night the chief was absent.

When he learned of the order this morning, Mr. Klein was indignant. "The place for the firemen is at their stations," declared the chief. "Albuquerque at best has not sufficient equipment when the great amount of property in the business district is concerned. Our only means of assuring the safety of life and property is to reach the scene of a fire while it is in its infancy, and anything that tends to delay the department even for a few seconds adds greatly to the danger."

The chief also took occasion to denounce the practice of sending fire alarms by telephone instead of over the regular alarm system.

"Even if you have a telephone in your house," declared the chief, "you can send in an alarm quicker by running half a block to a fire box and you have the additional satisfaction of knowing that it will be registered correctly. In the confusion incident to a fire parties are often unable to give the correct number of their house and there is the additional danger of having the message confused by an inexperienced operator at the telephone exchange."

Only yesterday afternoon we received a telephone alarm from the 480 block on West Roma and the message was received at the station as coming from the 1200 block. In this case the damage was small but the error in sending in the alarm caused the department to travel eight blocks unnecessarily, delaying the use of the fire chief in reaching the fire. It is necessary that the chief should be absent from the station for a considerable portion of each day and he often finds it difficult to procure a conveyance to take him speedily to the fire. The spectacle of Chief Klein going to a fire in a deep sea hack and reaching there anywhere from five to ten minutes after the automobile siren has almost moved Mayor Sellers to tears.

"We want the chief at the fire first," the mayor told the council last night, "and if the city can afford the expense I am in favor of purchasing him a light car which can carry a chemical tank and if necessary a second man."

Discharged Infantryman of the Eighteenth Says New Requirement Is Not Popular With Men.

The new four-year enlistment requirement of the United States army will prevent the enlistment of many men who would otherwise join the military establishment, in the opinion of E. Conway, late of B company, Eighteenth infantry, who passed through here en route home to Denver from San Francisco after being honorably discharged from his fourth enlistment, completing twelve years of service.

"The four year men," said Mr. Conway, "must now serve three instead of two years in the Philippines and other out of the way corners of the globe, the out-of-the-country service being increased. To get an honorable discharge a man must be in the army four years active service and three years reserve, and the new plan is not at all popular with the men who enlist or who would otherwise enlist."

Private Conway says he is going home to stay, but having been so long in the khaki it is quite possible, he also says, that he may not stay after all.

Costly Treatment.
"I was troubled with constipation and indigestion and spent hundreds of dollars for medicine and treatment," writes C. H. Hines, of Whitlow, Ark. "I went to a St. Louis hospital, also to a hospital in New Orleans, but no cure was effected. On returning home I began taking Chamberlain's Tablets, and worked right along. I used them for some time and am now all right." Sold by all druggists.

BATTLE SCARRED SADDLE SENT TO CONNORS

Local Ranger-Actor Made Gift of Relic of Fierce Fighting in Old Mexico—Captured on Border.

"Buck" Connors, Texas ranger and also one of the most valued members of the St. Louis Motion Picture company, received by express yesterday, as a gift from fellow rangers now on duty on the border, a Mexican saddle which, by reason of its age and history, will make a most important addition to Mr. Connors' already extremely valuable collection of frontier relics and curios.

The saddle, which has been placed on display in a window of the E. L. Washburn company, was acquired less than ten days ago by the Texas rangers, following the capture of a band of ammunition smugglers at Texas Island, about forty miles below El Paso. Less than twenty days ago it was the property of Captain Jose Maria Bonilla, a constitutionalist officer, who was shot dead from his horse while leading an attack upon the hacienda Ntra near Guadalupe.

An ancient inscription shows that the saddle was once the property of the great Hacienda St. Augustine, having probably been inherited through many generations of the owners of that estate.

The great age of the saddle is indicated by the steel-bolt joints, heavy steel rings, evidences of rope wear on

the tremendously heavy horn, and the fact that the horn and cantel are carved from heavy pieces of "faque," a species of very hard wood much used for this purpose in Mexico in an older day.

The saddle was sent to Mr. Connors by Rangers Charles Webster and Charles Moore, and it is unnecessary to say that the local man is highly delighted with the gift.

J. A. Hubbs, who was manager of the state fair in 1907, was much interested in seeing the picture of Charles Webster in the exhibit, Mr. Webster having been Mr. Hubbs' right-hand lieutenant in the fair work.
